### PERSONAL PROFILE

I am an experienced Technology Consultant but a Developer at heart. I am passionate about solving challenging problems and designing robust solutions. My drive to look at the holistic big picture has enabled me to experience various aspects of implementation projects - from Business Analysis to Technical Build. This has equipped me to be a better Software Engineer.

### WORK EXPERIENCE

#### Technology Consultant

Deloitte Australia | Mar 2018 - present

- Working as part business analyst part developer on client projects
- Developing in Enterprise level Java code-base
- Conducting modular unit and system integration testing
